Lesson Plan

Module: Automation and Robotics   **Learning Unit: Helping SMEs to automate with Robots**

Desired Core **professional goal** Learners will be able to - Recognise the advantages given by a process of Robot automation - Identify which types of Automation could be useful for their own company/business	**Benchmark** Robotics
Level Advanced	**Framework** Empower

Professional micro-learning outcomes Integration **Reflect about the needs…** Learners will be able to: - Identify the impact of the implementation of Robot automation on a business - Recognise the most suitable type of Robotics Automation for their professional context.

Micro-learning activities
 	
Learners will have to
 	
- Look at the video provided: *Helping SMEs to automate with Robots*
- Go through in depth further reading and resources:
  1 - https://youtu.be/hkypCOb1kvQ "What is RPA (Robotic Process Automation)
 	
  2 - Advantages and Disadvantages of Robotic Automation
